About Us

Naft Gostar Alamut Company was established in 2020 in the oil and Gas equipment field in Tehran-Iran and implemented several projects in 2022. It established an overseas branch by joining a company titled YMA Company. This joint company was registered in Istanbul-Turkey in 2023 under the name of Naft Gostar Alamut Company to advance activities in its specialized field. The joint company has been active for such projects in line with the goals of Naft Gostar Alamut Company as one of the big suppliers of equipment related to oil and gas, petrochemical, and refinery industries.

Introduction

NGA Group company with experienced technical staff and experts in the field of installation and operation of petrochemical, oil, and gas refineries and supply of materials for food and pharmaceutical industries and implementation of various projects and also has offices in UAE, Qatar, Turkey, Oman, China and... readiness to supply and equip and provide engineering technical services with modern knowledge.

NGA is a leading global provider of equipment and services tailored to the oil and gas, food, and pharmaceutical industries. With a strong reputation for quality, reliability, and innovation, the company plays an important role in supplying oil and gas equipment for use in projects around the world.

02

Key Offerings:

- **Regulatory Compliance Expertise:** We navigate complex regulatory requirements, ensuring your products meet industry standards and compliance.
- **Reliable Supply Chain Management:** Seamless and dependable supply chain solutions to meet your production demands on time.
- **Quality Control and Assurance:** Stringent quality control measures to maintain the highest product quality and safety standards.
- **Cost-Efficiency:** We offer competitive pricing without compromising quality, helping you manage production costs effectively.
- **Technical Support and Training:** Dedicated technical assistance and training to optimize your production processes.
- **Exceptional Customer Service:** Responsive and customer-centric support to address your specific needs and concerns.

03

VISION

At NGA Company, we see a future where our dedication to innovation and sustainability transforms the oil and gas machinery industry, making it safer, more efficient, and environmentally responsible. We are driven by our vision to be the catalyst for positive change, both within our industry and the world at large. We strive to reduce the industry's carbon footprint and promote responsible resource management. Our aim is to be recognized as a symbol of sustainable excellence, setting industry benchmarks in responsible manufacturing and operations. We envision a global community where collaboration and knowledge-sharing drive progress. Together, with our clients and partners, we will shape a brighter, more sustainable future for generations to come.

Mission Statement

05

At NGA Company, our unwavering commitment is to be at the forefront of revolutionizing the oil and gas industry. With a deep-rooted passion for innovation and excellence, our mission is to engineer, manufacture, and deliver world-class machinery solutions that not only meet but exceed the evolving demands of the energy sector.

We are driven by a profound sense of responsibility to provide machinery that not only enhances operational efficiency but also prioritizes safety and environmental sustainability. Our mission extends beyond profit; it encompasses our duty to support the global shift towards cleaner and more sustainable energy sources.

We achieve our mission by maintaining a relentless focus on customer satisfaction, always listening to and learning from our partners in the field. We strive to foster a culture of continuous improvement within our organization, empowering our talented team to push boundaries and pioneer new technologies.

As we move forward, we are dedicated to playing a pivotal role in the global energy transition. NGA Company aims to be synonymous with cutting-edge technology, dependable service, and a commitment to a sustainable, brighter future for all. Our mission is not just a statement; it's a promise to our partners, our employees, and the world we serve.

Our Abilities

- **Refining and Processing Equipment:** They supply equipment used in refining and processing facilities, including distillation units, heat exchangers, and separators, to convert crude oil into various refined products.
- **Maintenance and Repair Services:** In addition to equipment sales, NGA Company offers maintenance and repair services, including equipment inspections, refurbishments, and replacements to ensure the continuous operation of critical infrastructure.
- **Global Reach and Distribution:** NGA Co., operates in key oil and gas regions worldwide. Their strategically located offices, warehouses, and service centers enable them to efficiently serve clients in the Middle East and other parts of the world.
- **Cutting-Edge Technology and Innovation:** NGA Company is at the forefront of technological advancements in the oil and gas machinery sector. Our innovative solutions not only enhance performance but also address the evolving needs of our clients in an ever-changing industry.

Our Abilities

- **Customization and Adaptability:** We have the ability to tailor our machinery and equipment to meet the specific requirements of each client. Our flexible approach allows us to adapt to diverse project scopes, environments, and challenges. This customization capability ensures that our clients receive solutions that align perfectly with their operational goals.
- **Comprehensive Customer Support:** At NGA Company, our ability to provide exceptional customer support is a cornerstone of our success. We offer comprehensive post-purchase services, including maintenance, training, and troubleshooting. Our dedicated teams are available to ensure our clients' machinery operates at peak efficiency throughout its lifecycle.
- **Safety and Compliance:** Our ability to adhere to rigorous safety standards and regulatory requirements is paramount. We ensure that our machinery and equipment meet or exceed industry safety and compliance benchmarks, mitigating risks for our clients

These core capabilities empower us to deliver superior solutions and contribute positively to the success of our clients and the industry as a whole.

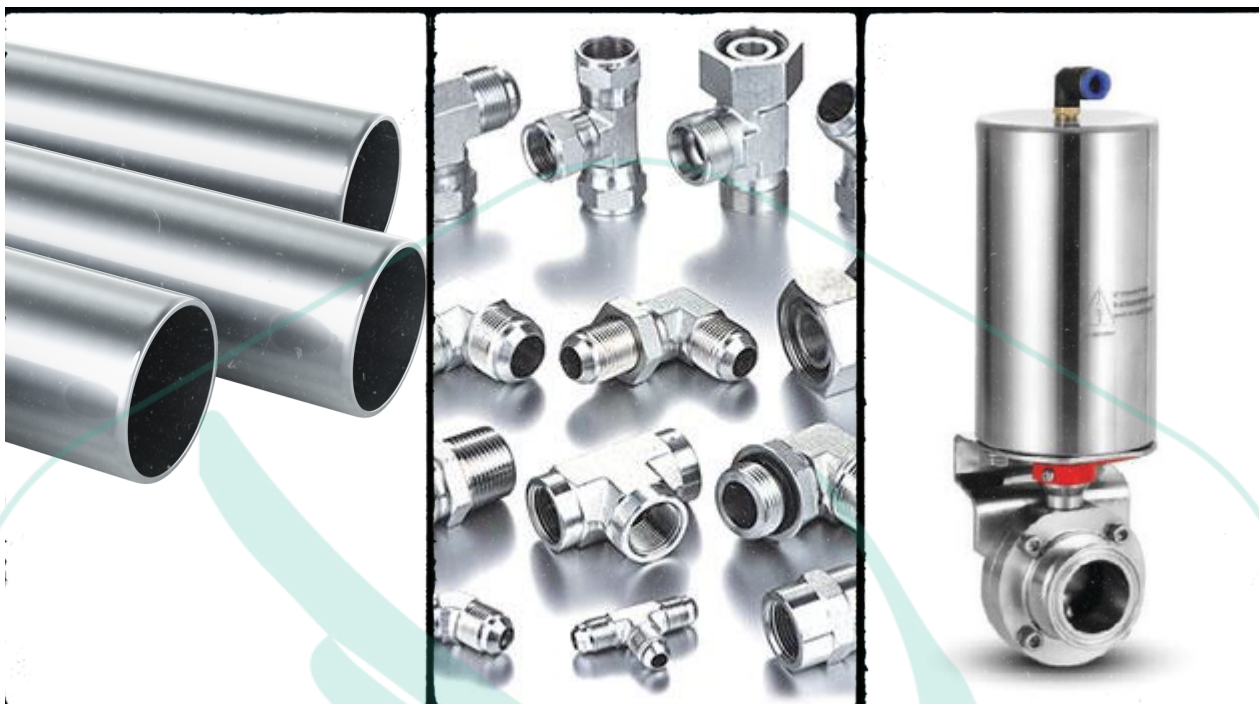

Project

○○○○

TASK	SUBJECT	END DATE
SUPPLYING EQUIPMENT FOR TABDILENERGY PAYA.CO,	CASPIAN POWER PLANT DEVELOPMENT PLAN	1402/01/15
MATERPARIAL SUPPLY FOR PARS TABLO.CO,	SETTING UP THE GENERATOR	1402/04/12
SUPPLYING EQUIPMENT FOR WIRA TEHRAN.CO,	MAKING INDUSTRIAL PACKAGES	1402/03/01

EQUIPMENT

- **Pipes:** Seamless - Welded - Seamless with different materials.
- **Fittings:** Elbow - Tee - Pipe Nipple - Coupling - Available in various materials.
- **Valves:** Needle Valve - Gate Valve - Butterfly Valve - Check Valve - Ball Valve - Instrumentation Valve - Control Valve - Available in various materials.
- **Flanges:** Weld Neck - Flat - Threaded - Socket Weld - Available in various materials.
- **Instruments:** Transmitter - Manometer - Electric Valve - Safety Valve - Pressure and Differential Pressure Switch - Diaphragm - Level Switch and Flow Switch - Pressure Gauge Test - Flowmeter - Thermocouple - Hydrostatic Hand Pump.
- **Flexible joint:** Acoustic Decoupling - Rubber - Restrained - Unrestrained.
- **Screws, Nuts, and Stud Bolts:** Available in various sizes and materials.
- **Iron and Steel Products:** Available in steel, stainless steel, and alloy materials. Includes I-beams, angles, channels, hollow sections, sheets, and round bars.
- **Electrical Equipment and Types of Cables:** Telecommunication Cables - Electrical Wires and Power Cables - Control Cables
