This is to confirm that Yokogawa Engineering Asia Pte Ltd (YEA) is the preferred co-operating party with Asia Control and to work closely with Asia Control to deliver Electrical, Instruments, Control System Technologies and Engineering, emphasizing on the Oil and Gas, Refinery, Petrochemical and Metals and Mining Industries.

Asia Control shall work hand in hand with YEA combining Asia Controls' comprehensive access to its leading edge with strong support from YEA where necessary.

The benefit of the projects awarded to YEA would secure and provide technical resources out of YEA's Business Units for Oil, Gas, Petrochemical and Minerals and provide good exposure and potential of YEA's businesses and product lines.

This is achieved through working closely and entering into co-operation with Asia Control to enable qualified staff capable to conduct those projects and result in client satisfaction. YEA, with its trained and established highly qualified system experts will integrate with the expertise of Asia Control in order to comply with the policy of transferring progressively Project execution requirements and technical know-how to the System Integrator as required under the Projects.

YEA reiterates that in its working co-operation with Asia Control, it is committed to:

1. Providing total engineering solutions under the terms of the contract of the Project;
2. Supplying of any agreed hardware, non-infringing software & licenses, if any;
3. Supporting in any required FAT and commissioning phases where necessary;
4. Project Management to execute the Project to client satisfaction in accordance with the project requirements/contract.

As YEA remains a co-operating party with Asia Control in its pursuit of the projects and works closely with Asia Control, any award of contracts or projects shall be contracted between Asia Control and your esteemed company.

We look forward to creating a mutually profitable business.

Yours faithfully

Ling Peir Chau
Vice President
