28 Years Implementing Minerals and Infrastructure Projects
Feasibility Studies, EPCM and EPC/Turnkey Contracts

Email: michael.short@gbmmec.com

Website: www.gbmmec.com

Dear Sirs,

04 October 2022

EXPRESSION OF INTEREST FOR THE EPC OF THE SUNGUN COPPER CONCENTRATOR (21 MTPA) IN THE ISLAMIC REPUBLIC OF IRAN, GBM PROPOSAL NO. 8400

We understand that NICICO is seeking Expressions of Interest from Contractors to perform the EPC of the Sungun Copper Concentrator, encompassing SAG Grinding, Ball Milling, Pebble Crushing and Flotation of Chalcopyrite, followed by Dewatering (Thickening and Filtration). GBM Minerals Limited, based in the UK, is very interested in assisting you on this Project.

GBM Minerals Limited is a Member of the GBM Group of Companies which was established 28 years ago (in March 1994) after Kaiser Engineers, Inc., closed its offices in London. GBM was established to work primarily on Feasibility Studies and on the Design and Construction of Gold and Base Metal Projects, as well as Civil Engineering Projects, such as HydroElectric Dams and Irrigation Schemes. Since 1994, GBM has since performed 582 mining assignments 87 countries.

GBM has worked on 45 Copper Projects in 24 countries. A similar project to Sungun would be our Feasibility Study of the 18 Mtpa Miheevsky Copper Concentrator Project where GBM completed Basic Design and prepared Budget Costs.

GBM has a full team of Process, Mechanical, Piping, Civil/Structural, Electrical and Instrumentation Engineers for Design, a full Procurement Department and a full Construction Team for work on site, if required. We say "if required" because there are already many well qualified and experienced personnel in the Islamic Republic of Iran and we would expect the GBM team members to participate heavily in the Detailed Process Design, Basic Engineering Design (other disciplines), Offshore Procurement and Senior Project Management Services. All of the relevant positions shall be discussed with our Partners during the Project Proposal Phase of the work.

If you require any further information or clarifications, please do not hesitate to contact me directly at any time on +44 20 8144 8250 or by email on michael.short@gbmmec.com

Yours faithfully,

Michael Short

Managing Director – GBM Minerals Limited

AUTHORIZATION LETTER

To Whom It May Concern,

This document serves to officially certify **POUYAN ARKAN SARV CO** as a distinguished and prospective partner of Shenzhen INVT Electric Co., Ltd. This partnership encompasses the marketing, proposal development, sale, and delivery of Medium and Low Voltage Drive solutions within the regions of the Middle East.

POUYAN ARKAN SARV CO boasts a team of adept professionals with profound expertise in Medium and Low Voltage Drive Systems, Electrical Distribution, Energy Management, and Process and Power Automation System Integration across various sectors, including Oil and Gas Petrochemical, Mining Minerals and Metals, Water and Wastewater. Their comprehensive knowledge ensures the delivery of sophisticated solutions, guaranteeing optimal customer satisfaction.

Shenzhen INVT Electric Co., Ltd. hereby commits to providing **POUYAN ARKAN SARV CO** with technical support and training on INVT Medium and Low Voltage Drives, encompassing Assembly, Design, Installation, Commissioning, and Maintenance activities, thus strengthening the capabilities of **POUYAN ARKAN SARV CO**.

This Letter of Authorization is issued in adherence to established guidelines, solidifying the partnership for the specified business activities.

Sincerely,

For and on behalf of

SHENZHEN INVT ELECTRIC CO., LTD.

(PAS GROUP)

COMMITMENT LETTER

To whom it may concern:

Upon the request of P O U Y A N A R K A N S A R V (PAS GROUP), we use this **Letter of Commitment**, hereinafter referred to as the Request for Participation in the Turnkey Projects in Iran Industries Market, for the following declarations and presentations:

We are **DELTA DUCON ENGENHARIA E EQUIPAMENTOS INDUSTRIAIS LTDA.**, a Brazilian company headquartered at Avenida Ipiranga, 324 – 4th, 8th and 11th floors, São Paulo City, São Paulo State - Brazil, zip code – 01046-010, represented herein by its General Director and Application Engineering Manager, undersigned and qualified.

We have been operating in the Brazilian and Latin American market for 25 years. Furthermore, we carry out projects, manufactures and supplies of complete solutions / integrated processes, involving mechanical, electrical, instrumentation, automation, assembly, start-up, testings, training and assisted operation scopes for the following lines of industrial facilities:

-  Gas Filtration Treatment / Air Cleaning Systems (Atmospheric Emissions Control Systems);
-  Handling, Processing and Pneumatic Transport Systems for Solid Bulk Products;
-  Systems and Equipment for Industrial Water and Wastewater Treatment

With our technical engineering, contract administration, logistics and after-sales teams - adding more than 200 professionals - we are committed to be participating in Turn Key projects, for the above-mentioned products line, as a qualified supplier, with a management ensured by ISO 9000 standards, suitable for the development of highly complex projects, supply of specialized technical services and mechanical, electrical and automation equipments, for applications in various market segments: Oil / Petrochemical, Mining and Metallurgy (cement, lime, iron, copper, zinc, aluminum, etc.), Glass Manufacturers, Food Industries, Fertilizer Industries, Chemical and Pharmaceutical Industries, among several other relevant segments in the Iranian market, to be defined, for which we have technologies and references from similar previous supplies.

DELTA DUCON ENGENHARIA E EQUIPAMENTOS INDUSTRIAIS LTDA., declares that it will supply systems / equipment that will meet the descriptive memorials, technical specifications, data sheets and other technical documents of each project and will guarantee, under the terms of the offer, the performance and quality of the system, as well as will supply **POUYAN ARKAN S A R V (PAS GROUP)** according to negotiations to be carried out on a case-by-case basis, the technical support, engineering, after-sales services necessary for the viability of the sale and local installation.

For a better understanding of the scope of our range of systems, equipment and services, we have attached our **General Presentation**. The main operating segments and the complete line we offer to the market are described on pages 05 and 06 of the presentation.

Finally, **DELTA DUCON ENGENHARIA E EQUIPAMENTOS INDUSTRIAIS LTDA.**, declares to be an exclusively Brazilian company, with its own technologies, without partnerships or participation with or in companies in foreign markets, which may eventually can have restrictions on supplies to Iran.

Best Regards.

Ricardo Silva – General Director – CEO
