

## GazAbshir Engineering Team Chart

### 1. Head of Engineering: Mr. S. Davarpanah

#### Profile:

Mr. Davarpanah holds a Master's degree in Mechanical Engineering from Bundeswehr Munich, Germany (1982). He is a pioneer in Iran's valve and fitting industry and has been instrumental in designing and manufacturing the company's product range.

#### Responsibilities:

- Oversee and manage the entire engineering department.
- Lead strategic planning and decision-making for engineering initiatives.
- Mentor and guide senior engineers and their teams.

### 2. University Liaison: Dr. P. Rabbanifar

#### Profile:

Dr. Rabbanifar is a faculty member at a prestigious university and plays a key role in fostering a strong connection between PARS ETESALAT and the academic institution.

#### Responsibilities:

- Facilitate collaborations between the company and the university, promoting knowledge exchange and innovation.
- Coordinate research projects, internships, and training programs for students and staff.

### 3. Senior Engineers (11)

#### Responsibilities:

- Lead teams, review designs, and provide technical guidance.
- Coordinate with production and quality control departments.
- Mentor and supervise engineers in their respective teams.
- Participate in the conceptual design and engineering analysis.

#### 4. Team A (5)

- E

ngineers (4)

Responsibilities

:

- Design and develop valve components using CAD software.
- Create detailed technical drawings for manufacturing.
- Optimize production processes for efficiency and quality.
- Collaborate with Team B on material selection and testing.

#### 5. Team B (6)

- E

ngineers (5)

Responsibilities

:

- Evaluate material properties and select high-quality raw materials.
- Perform non-destructive testing, hydrostatic testing, and performance evaluations.
- Ensure that valves/fittings meet pressure rating requirements and customer specifications.
- Collaborate with Team A on design aspects and production process improvements.

With the addition of Dr. Rabbanifar as the University Liaison, PARS ETESALAT further strengthens its commitment to innovation and collaboration, ensuring a strong connection between industry and academia.
